Short Description

Cetme C rifle in .308 Win. We build these up with all original Spanish parts kits. We then use a receiver flat build for us exactly like the original Cetme Frame that we bend and weld up. We have a barrel maker here in the USA make us a very good copy of the original barrel that will be accurate for years to come. We then install a USA Flash Hider, US Pistol Grip, Magazine Follower & Magazine floor plate to give the required 7 parts for 922R compliance. The wood is refinished and the gun is finished in Teflon paint. We test fire 20 rounds to ensure accuracy and reliability.
